How to Find Journal Articles in EBSCO FT

(and create citations for your works cited page or bibliography)
You can access EBSCO FT (and other library resources) directly from Blackboard. Click the MSU Library link in the course menu.
The MSU Online Library Resources drop down menu will appear.
Click the arrow in the drop down menu to view resources organized by subject area. EBSCO FT is found with the General—Multi-Disciplinary resources.
Select EBSCO Full Text from the alphabetical list of multi-disciplinary resources.
EBSCO FT will open directly in a new window. All of the resources in the Online Library Resources drop down menu can be accessed without having to log in with another username and password.
Now enter your keyword(s) in the search window.
Click the title of an article to access the citation maker and other tools.
Click the yellow “Cite this article” icon to generate citations.
Now choose the appropriate citation style and copy & paste the citation into your bibliography/works cited page.

*Note that you will need to supply the library name, city, and state abbreviation.
